Taunton Bay Adventure Camp 2026

July 21-23 or Aug 4-6, 9 AM- noon

Gordon's Wharf, 11 Wharf Rd, Sullivan, ME

Loads of active fun and learning for 6 to 11 year-olds on the coast of Maine

Explore how sea animals and plants live together, depend on each other, and how they change over time.

Some highlights will be: A scavenger hunt on the shoreline; scoping out microplastics and invasive species; and identifying fish by what they eat. We'll see "seed clams" being grown at Gordon's Wharf, try digging for clams, and cook and eat clams for snack (if no allergies); On Day 3 we'll feed the sea animals at CCAR, and create a phenology chart of how sealife changes over time.

\$75 for 3-day session. Sullivan residents free of charge. Scholarships available.

For more info, registration form, and scholarship application:
go to [Friendsoftauntonbay.org/education](https://friendsoftauntonbay.org/education)

email: info@friendsoftauntonbay.org OR call: 207-422-6282

Registration is at the Sullivan Town Hall or via mail or email.
